

## **M** Series Motorised Retractable Monitors

### Overview

The SEADA M Series Motorised Retractable Monitors are state of the art exquisite monitors that are made from aluminum. To ensure the finest ergonomics and the best viewing angle it has a vertical motorised movement that can be automatically tilted to 16°. M series comes in three different sizes of 15", 17" and 22" to satisfy different users' need.

This system can be used as a standalone unit in class rooms, offices, receptions etc. In addition, it can operate as a multi units' system with the SEADA paperless conference platform. SEADA conference platform has multiple screens across the table which allows all the participants to have a clear view of the information.

When it is not in use, the monitor can be retracted into the housing beneath the desk. This makes the desk surface tidy as well as putting the monitor in a safe and secure location.

### Features

- Motorised retractable monitor
- 16 degree of automatic inclination screen
- One button control
